EXPERIENCE

JJ Sullivan Plumbing & Heating, Somerville, MA 02143

— Plumber

October 2018 - present

As a plumbing foreman for JJS my job is to construct and complete complex plumbing systems in commercial and residential applications. I also cover in-home service calls for faulty plumbing/heating systems.

Spolidoro & sons Plumbing & Heating, Billerica, MA 01821

— Apprentice Plumber

April 2016 - october 2018

As an apprentice plumber I assisted with the completion of large-scale plumbing applications in the commercial sector.

PROJECTS

Bloc Jams

Using React.js I built a music player in school from scratch with functionalities such as a pause/play button, volume mixer, and the ability to select any point in the current song to play.

Bloc Chat React

A chat application I built in school utilizing React.js to update and delete messages, browse complete message history, and manage account names and dates.

Summary

Junior full stack developer with experience in major front-end frameworks and databases.
